SUBJECT INDEX, VOLUME 23, 1958

Subject *Page*

Acceptability of fresh and precooked irradiated meats during 8 months' storage at room temperature 603
Acetoglycerides, long-term feeding studies (rats) 536
Acetostearin, effect of, on reproduction in rats 550
Acid and sugar content of free-stone peaches, effect of temperature and bruising on 380
Action of purified "tomato polygalacturonase" 693
Agar plate, direct surface method for quantitative detection of bacterial contamination on nonporous surfaces 170

Subject *Page*

All-vegetable protein diets, buckwheat as a supplement to 407
Amino acids in tomato juice, determination of, by ion-exchange chromatography 329
Analyzing blended materials by a composite sample method 565
Anethol and thymol media, selectivity of, for lactic acid bacteria 155
Animal feed, use of perch and herring scales for 684
Animal tissues, succinoxidase activity of 280
Antibiotic residuals, microbial resistance in poultry treated with tetracyclines 525
Antioxidant and copper binding properties of onions 274
Apples, Virginia, chemical composition of 492
Aquatic animals, free imidazole compounds of muscle tissue of 611
Aseptic autolysis of muscle, rabbit and lamb, biochemical and microscopic modifications during aseptic and anaerobic storage 305
Autoclave-sterilized violet red bile agar, selectivity of 532

Baby beef liver, effects of radiation and cooking on quality of 473
Bacterial contamination of surfaces, comparative evaluation of methods for determining 175
Bacterial spoilage of eggs, protective role of shell membranes in 283
Beef, fish, and beans, dehydrated, nutritional quality of 401
Beef, quality factors of, effect of degree of finish on 32
Beef roasts, radiated and unirradiated, influence of salt on panel scores 384
Beef round, tenderness variations of 662
Bioassays, rat and chick, of ocean perch and herring scales 684
Biochemical and microscopic modifications occurring in rabbit and lamb muscle during aseptic and anaerobic storage 305
Biochemistry of radiated potatoes 464
Brandy stillage, pretreatment of, for disposal in a municipal waste treatment plant 297
Broccoli, determination of chlorophyll and pheophytin in 635
Browning of sugar solutions, effect of pH and type of amino acid in 61
Browning of sugar solutions, effect of position of amino group in the acid molecule 68
Bruising, effect of, on sugar and acid content of free-stone peaches 380
Buckwheat as supplement to all-vegetable protein diets 407

Carotenoids in passion fruit juice 505
Chemical composition of pink salmon, variation in 619
Chemical composition of Virginia apples 492
Chemicals in water, effect of, on brewed coffee flavor 575
Chicken, cooked, volatile carbonyl compounds of, compounds obtained by air entrainment 103
Chlorophyll and pheophytin in broccoli heated by various procedures 635
Chromatography, ion-exchange, of amino acids in tomato juice 329
Clostridium botulinum, toxin production and organoleptic breakdown in vacuum packaged meats inoculated with 656
Cobalt glass dosimetry in electron beam radiation of foods 599
Coffee, brewed, flavor of, effects of chemicals in water on 575
Coffee, ground, effect of ion combinations in potable water on rate of filtration through 76
Complexing and chelating agents, effect of, on after-cooking discoloration of potatoes and upon iron and phenolic content of the juice 269
Composite sample method for analyzing blended materials 565
Copper binding properties of onions 274
Copper casse formation in white table wine, source of sulfur in the sediment 518
Cucumber flowers, softening enzyme activity of 198
Cucumbers, pickling, changes in pectic substances during fermentation and softening of 351
Cysteine derivatives in mature onion bulbs 345
Cystine, microbiological assay of, in food proteins 119

Decomposition of starch in sausage products 161
Degree of finish and differences in quality factors of beef 32
Diastase activity and hydroxyl-methyl-furfural in honey 446
Disposal of brandy stillage, pretreatment 297

Subject	*Page*
Effect of gamma radiation on bacterial spores	41
Eggs, method for measuring rheological properties of	670
Enterococci, incidence and nature of, on plant materials	186
Enzymatic hydrolysis of naringin, bitter principle of grapefruit	591
Enzymatic tenderization of meat, panel and histological analyses of meat treated with liquid tenderizers containing papain	411
Enzyme action and off-flavor in frozen peas, use of enzymes prepared from garden peas	584
Enzyme action and off-flavor in peas	25
Enzyme preparations from three different sources, tenderizing meat with	423
Errors of the second kind in an acid threshold test	150
Escherichia coli and a spoilage yeast, viability in carbonated beverages	133
Fat in muscle tissue, photomicrographic method for	1
Fermentation and softening of pickling cucumbers, changes in pectic substances during	351
Ficin content of the latex from different varieties of *Ficus carica* and a comparison of several micro-methods of protein determination	364
Figs, effect of variety and maturity on the proteolytic enzyme content of	371
Filtration, rate of, through coffee grounds, effect on, of ion combinations found in potable water	76
Fish muscle, thawed, analysis of protein constituents of drip from	143
Flavor, brewed coffee, effect of chemicals in water on	575
Flavor, meat, preliminary studies on	567
Fruit and sugar beet marcs, method of characterizing pectic substances in	72
Fungi that might cause softening of storage olives	235
Gamma radiation, effect of, on bacterial spores	41
Gas chromatography, use of, for analysis of coffee volatiles	254
Gas partition chromatography, use of, to examine lemon oil	213
Grapefruit, enzymatic hydrolysis of naringin, bitter principle of	591
Grapes, red, extraction of tannin and color from	511
Heat alteration of honey, detection of, by diastase activity and hydroxyl-methyl-furfural	446
Hematin compounds, effects of radiation on	205
Histological analyses of meat treated with tenderizers containing papain	411
Hydroxy-methyl-furfural and diastase activity, detection of heat alteration of honey by	446
Imidazole compounds, content of, in muscle tissue of aquatic animals	611
Ion-exchange chromatography of amino acids in tomato juice	329
Lactic acid bacteria, selectivity of anethol and thymol media for	155
Lemon oil, examination of, by gas-partition chromatography	213
Lipase, preparation of, from peas, and action of steapsin, pea lipase on crude pea lipid	439
Lipid, crude, (stored, frozen green peas) carbonyl content of, effect of blanching on	85
Meat flavor, preliminary studies on	567
Meats, fresh, inoculated with *Cl. botulinum*, toxin production in	656
Methional, odor and flavor of	221
Methional, role of, as a flavor compound	130
Microbial flora of packaged frankfurters and their radiation resistance	291
Naringin, bitter principle of grapefruit, enzymatic hydrolysis of	591
Niacin, thiamine, riboflavin in oysters	194
Non-antiscorbutic reducing substances, effect of, on the ascorbic acid content of baked potatoes	114
Nutritional quality and *in vitro* digestibility of dehydrated beef, fish and beans	401
Nutritive value of a wheat flakes, dried whole milk, and sugar mixture	244
Off-flavor in frozen peas and enzyme action	584
Olives, storage, some fungi that might cause softening	235

Subject	*Page*
Onion bulbs, mature, cysteine derivatives in	345
Onions, antioxidant and copper binding properties of	274
Optimum conditions of hydrolysis for microbiological assay of cystine in food proteins	119
Organoleptic breakdown and toxin production in vacuum packaged fresh meats inoculated with *Cl. botulinum*	656
Oxidative rancidity, determination of, by 2-thiobarbituric acid and characterization of the red pigment formed thereby	626
Oysters, Apalachicola Bay, riboflavin, niacin, and thiamine in	194
Papain, liquid tenderizers containing, analyses of meat treated with	411
Particle size, sub-sieve, of pulverized sugar	677
Passion fruit juice, carotenoids in	505
Peaches, free-stone, effect of temperature and bruising on the sugar and acid content of	380
Peas, enzyme action and off-flavor in	25
Peas, frozen, effect of blanching on carbonyl content of the crude lipid during storage of	85
Pectic substances, changes in, during fermentation and softening of four varieties of pickling cucumbers	351
Pectic substances in some fruit and sugar beet marcs, method of characterizing	72
P_h function of Ball and Olson, revised table of	396
Photomicrographic method for estimating fat in muscle tissue	1
Pickle brines, determination of, and disappearance from, of sorbic acid in	329
Pigment, red, formed in 2-thiobarbituric acid determination	626
Pigments of off-colored cooked tuna meat	262
Pineapple products, canned, vitamin B_6 in	327
Potatoes, after-cooking discoloration of, effect of complexing and chelating agents on	269
Potatoes, radiated, biochemistry of, under commercial conditions	464
Poultry treated with tetracyclines, antibiotic residuals and microbial resistance in	525
Protective role of shell membranes in bacterial spoilage of eggs	283
Protein constituents of drip from thawed fish muscle	143
Protein determination, comparison of several micro-methods for, and ficin content of *Ficus carica*	364
Proteolytic enzyme content of figs, effect of variety and maturity on	371
Pseudomonas fluorescens, effect of metabolites on the viability of heat-treated	126
Psychophysical basis in taste testing by pair comparison, with special reference to position and temperature	217
Radiated beef roasts, influence of salt on panel scores of unirradiated and	384
Radiated meats, fresh and precooked, acceptability of, during room temperature	603
Radiation and cooking, effects of, on baby beef liver quality	473
Radiation, effects of, on hematin compounds	205
Radiation, foods, use of cobalt glass dosimetry in electron beam to measure	599
Radiation, gamma, effect on bacterial spores	41
Radiation resistance of microbial flora of packaged frankfurters	291
Revised table of the P_h function of Ball and Olson	396
Rheological properties of eggs, a method for measuring	670
Riboflavin, niacin, and thiamine in Apalachicola Bay Oysters	194
Salmon, baked, effects of oven temperature on certain characteristics of	17
Salmon, pink, S.E. Alaska, variation in composition of	619
Scales from ocean perch and herring as animal feed	684
Scales, ocean perch and herring, rat and chick bioassays of	684
Selectivity of autoclave-sterilized violet red bile agar	532
Sensory tests, duo-trio, paired, triangle, in organoleptic research	225
Sequential analysis in organoleptic research, triangle, paired, duo-trio tests	225
Softening enzyme activity of cucumber flowers from Northern production areas	198
Sorbic acid, determination of, disappearance from, pickle brines	329
Starch, behavior of, during food preparation, some properties of starch water systems	554
Starch in sausage products, decomposition of	161
Steapsin, pea lipase, action of, on crude pea lipid	439

Subject *Page*

Succinoxidase activity on some animal tissues 280
Sugar and acid content of free-stone peaches, effect of temperature and bruising on 380
Sugar, pulverized, analytical method for determining sub-sieve particle size 677

Tannin and color, extraction of, from red grapes 511
Tenderization, enzymatic, of meat 411, 423
Tenderness in three muscles of beef round 662
Tetracyclines, antibiotic residuals and microbial resistance in poultry treated with 525
Thermal resistance values obtained by thermoresistometer method, some factors influencing 51
Thermoresistometer method and some factors influencing thermal resistance values 51
Thiamine, riboflavin, and niacin in oysters 194
2-Thiobarbituric acid determination of oxidative rancidity 626
Threshold test, acid, errors of the second kind in 150
Thymol and anethol media, their selectivity for lactic acid bacteria 155
Tomato juice, amino acids in 329
Tomato juice, effect of fertilizers on quality and composition of 648
Tomato polygalacturonase, action of 693
Triangular taste tests, some statistical considerations for small sample evaluation in 388
Tuna meat, cooked, pigments of off-color in 262
Turkeys, bronze, broad breasted, effect of xanthophyll on palatability and fat stability of fresh and frozen 7
Turkeys, frozen, stuffed, roasting of, survival of *Salmonella pullorum* in inoculated stuffing 87
Turkeys, frozen, stuffed, roasting of, survival of *Micrococcus pyogenes* var. *aureus* in inoculated stuffing 96

Vitamin B_6 in canned pineapple products 327
Volatile carbonyl compounds of cooked chicken 103
Volatiles, coffee, sampling method for analysis of coffee volatiles by gas chromatography 254

Wheat flakes, dried whole milk, and sugar mixture, nutritive value of 244
Wine, white, table, mechanism of copper casse formation in, source of sulphur in the sediment 518

Xanthophyll, effect of, on palatability and fat stability of fresh and frozen broad-breasted bronze turkeys 7

Yeast, spoilage, and *E. coli*, viability of, in carbonated beverages 133
